Chase.uidesigns@gmail.com

Gulfport, Mississippi
Remote/Relocation Ready

## SUMMARY

Passionate UI Designer possessing creativity, ability to learn quickly, and time management skills as demonstrated by supervising 75 individuals while maintaining a 3.6 GPA. Seeking to leverage four years of case management and development experience to join an organization that values teamwork, structure, and their employee's ability to prosper.

## EXPERIENCE

**DEVELOPMENT COORDINATOR**                                        New York, NY
**Helpusadopt.org**                                        September 2020 - February 2023

- Collaborated with Founder to secure fundraising over $1.8 million USD annually for program.
- Creatively enhanced funding by 20% with team, resulting in $200,000 increased revenue in 2022.
- Maintained and meticulously updated a dynamic database encompassing 20,000+ individuals, ensuring accuracy and precision for each entry.
- Managed fundraising mailings amounting to over 10,000+ individual letters sent yearly.

**VOLUNTEER COORDINATOR**                                        Bay St. Louis, MS
**CASA of Hancock County**                                        August 2018 - January 2020

- Provided dynamic training and supervision for over 24 CASA advocates and 35 children.
- Conducted 80 hours of national standardized training for volunteers per year.
- Drafted, proofed, and submitted legal documents to Hancock County Youth Court and participated in over 150 scheduled judicial hearings in a supervisory capacity.

## PROJECTS

**ROADRUNNER | RUNNER SHOPPING APP**                                        October 2023 - Present
UI Designer

- Designed high fidelity mockups for mobile application enabling runners to easily navigate, archive, and browse running gear.

**LOCALFRESH | RECIPE WEB APP**                                        August - September 2023
UI/UX Designer

- Conceptualized and designed web based responsive app by conducting User Interviews and User Testing.
- Synthesized user research to prototype high fidelity UI with mobile first design approach.
